LinkedIn: [Vladyslav Kvochkin](#)

**Data Scientist**

---

### Summary & Objective

I am a student of Taras Shevchenko KNU, study at the 4<sup>th</sup> year. I love mathematics and programming. That's why I decide to learn Big Data and Data Science. Like cinema, learn new area and improving myself. I want to became good Junior Data Scientist and increase my skills to the team lead and higher.

---

### Skills

- Theoretical knowledge of mathematical statistics, probability theory (regression analysis, time series analysis, cluster analysis)
- Theoretical and practical understanding of machine learning methods
- Python
- Tableau
- SQL
- NoSQL (minimal knowledge)

---

### Experience

**1. Junior Data Scientist** 3 months

**Udata School**

Cluster analysis of suppliers of bidders and BI project development for the largest portal of purchases in Ukraine - Prozorro.

**2. Projects analyzing** 6 months

Also, experience in analyzing projects for investing in more than 20 ICO projects.

---

### Language proficiency

**English** - Intermediate

I can be interviewed in this language

---

## Education

### Taras Shevchenko National University of Kyiv

End date 2019

Faculty of Mathematics and Mathematics, specialty - mathematics actuarial.

### Ukrainian Physics and Mathematics Lyceum of Kyiv National Taras Shevchenko University

End date 2015

Kiev

---

## Courses

- **Udata School** (Crush Course, Base course).

This is offline course, where studied 32 students selected out of 2000+ candidates from over Ukraine. We have learned: Probability Theory, Mathematical Statistics, Python-Libs, Basis of Machine learning and Numerical methods of optimization

- **'Data Analysis with Python'**

Data Analysis and basics of machine learning with Python.

Certificate - <https://courses.cognitiveclass.ai/certificates/383d20d7210f4070bd7edb65027f38ab>

- **'Machine Learning'** from Stanford University (Coursera)
- **'Введение в машинное обучение'** from Yandex School of Data Analysis (Coursera)
- **'SQL for Data Science'** from University of California (Coursera)
- **'mlcourse.ai'** (Хабр / [www.mlcourse.ai](http://www.mlcourse.ai))
- **'Courses on working with Tableau'**
